			<p>Thank you to the BoE and all school officials and staff for standing up remote learning. While I agree with Vik's points, I also concur with all those in favor of the students working through April break.</p> <p>My question is: Will all 4th quarter courses begin as scheduled next week and generally cover the content expected in each 4th quarter course?</p> <p>I am also in favor of using any tools (e.g. Zoom, etc.) if it enhances the students' educational experience, as determined by teachers, and will sign a waiver if required.</p>
3/23/2020	Tim Foisie	94-B Bayberry Lane, Westport	Kind regards,Tim Foisie
3/23/2020	Ted Gillman	61 Hermit Lane	Will the BOE consider the use of videoconferencing for distance learning?
3/23/2020	Christina McKay DiChristi	19 Clover Lane Westport	Do you feel that the teachers would benefit from the respite that spring break would offer, given the intensity of work they are putting in to get remote learning off the ground so quickly?
3/23/2020	anonymous	not comfortable addressing	I think that if this online learning thing continues, some form of structure needs to be put into place. It is ridiculous that I have more work in gym class, when if in school our unit would be archery, then A.P Economics. Are there guidelines and structure that you guys are going to put into place that will even out the amount of work we are receiving because this is a little ridiculous?
3/23/2020	Anna Rycenga	20 Westfair Drive, Westport	Mr. John Bayers...just an observation! LOVE the Boston College banner! Go Eagles! Needed a chuckle!
3/23/2020	Ranju Kunari	15 Marion Road	Will distance learning lower the curriculum learnt by students, and if so how will the students catch up in curriculum to be prepared for their next grade?
3/23/2020	Erynn Keefe	23 Harborview Rd, Westport	What is the specific plan to evolve to virtual learning and what is a realistic timeline? This would include all students K and above.
3/23/2020	Kimberly Bard	14 Old Orchard Road	At home learning is far below the quality of in school learning. I am completely opposed to shortening the school year and taking away the April break. They need to learn in school. Additionally, the kids need to be with friends. They can't be with them now and should be given the chance to be with their friends for as long as possible in June.
3/23/2020	Sue Herrmann	5 Spring Hill Rd	Hi: Writing as a parent NOT a PTA President...I would love to keep the momentum we are slowly gaining with distance learning. Since we just had a break in February and we can't go anywhere right now, it seems like we should just keep doing what we are doing. Thanks.

3/23/2020	Mary Esser	9 Ambler Rd West	I support Dr Abbey's recommendation to continue Distance Learning. My husband and I are both working from home full time. The kids need to stay focused. Thank you for looking for ways to make it more interactive. Please use grades to continue to get their attention. Thank you all for your service to our town!
