Mon, Nov 19, 2018 at 8:42 AM

Dear Families of Westport Students,

At the inaugural meeting of the Community Advisory Group (CAG) last evening, I shared the attached document that outlines the options under consideration for next year. This will be discussed at the BoE meeting tomorrow evening as well. Having this in your hands will make reviewing these options easier for you.

The CAG has also called for second meeting tomorrow, Tuesday, November 20, at 7:30 p.m. in BMS library. All CAG meetings are open to the public.

Additionally, included on the BoE agenda will be an update on CMS that includes: 1) status reports by both Dr. Rosen, BMS Principal, and Kris Szabo, CMS Principal; 2) update on process for acquiring and installing modulars at BMS; 3) discussion of the three-page memo included in the BoE packet (also attached) from the industrial hygienist, 4) report of the hiring of a project manager to assist with oversight of comprehensive work of facilities; and 5) other related issues pertaining to the continued work of the District related to these facilities. The final report of the industrial hygienist (Turner Building Science and Design, LLC) is due to the District today. Upon receipt it will be posted and can be accessed from a link on our homepage of our website.

Sincerely,
Colleen Palmer
