WATER/SEWAGE – 411

The following items are included in this account:

Water Metered Service

Fire Service

Sewer Service Assessment

ELECTRICITY - 413

This account records the expenditures, by school, of all electricity payments made throughout the year for all school facilities. The Board of Education has initiated an Energy Management Program which includes installation of motion sensors to turn lights off in classrooms, light fixture retrofits to change out older, higher usage fixtures with energy efficient models, etc. However, as we add more equipment to these schools, i.e., air conditioning, computers, laboratory equipment, etc. our consumption also increases.

UTILITIES

We expect to burn natural gas throughout the current fiscal year. The decision to burn natural gas or heating oil is made regularly based on the most favorable market rate for each fuel source. The natural gas and heating oil markets continue to remain volatile.

HEAT ENERGY – NATURAL GAS – 414

This account records the expenditures for the natural gas that is currently used to heat most of our schools. This account supports the dual fuel capabilities of the Westport Public Schools. Our capacity to burn both natural gas and heating oil keeps the gas pricing at a favorable and competitive pricing rate. We expect to burn natural gas in 2016/2017.

HEAT ENERGY – FUEL OIL - 415

The Westport Public Schools purchases its oil through the Town's contract with Santa Buckley Energy. We expect to burn minimal amounts of oil in 2016/2017.

BUILDINGS & GROUNDS MAINTENANCE

BUILDING MAINTENANCE – 431

This account includes repairs and maintenance costs incurred in order to maintain the schools in a safe and secure manner. The type and scope of the project or repair will determine whether the repair or project is completed by the Board of Education's maintenance staff or by an outside contractor. Because we maintain such a large inventory of facilities we can predict that various repairs must be made during the year. It is not always possible to predict what area of a school will need attention. Examples of repairs covered by this account include:

Electrical Lighting	Mechanical Systems	Fire Protection	Roofing Systems
Doors/Locks/Hardware	Plumbing	Septic Systems	Security Systems
Windows/Glass	Floor/Wall Coverings	Elevators	Lockers

The distribution to schools is an allocation. Actual costs are charged to the appropriate location.

GROUNDS MAINTENANCE – 432

This account includes repairs and maintenance costs incurred in order to maintain the school grounds in a safe and secure manner. The type and scope of the project will determine whether it is completed by the Board of Education's maintenance staff or by an outside contractor. Because we maintain such a large inventory of buildings and grounds we can predict that various repairs must be made during the year. It is not always possible to predict what area of a school will need attention. Examples of repairs covered by this account include:

Pest Control	Playground Maintenance	Clean Swales
Sidewalk Repairs	Parking Lot Repairs	Environmental Service Fees
Drain Cleaning		

The distribution to schools is an allocation. Actual costs are charged to the appropriate location.
